

ALAN CHANEL TCHAPDA PIEME

FULLSTACK DEVELOPER

✉ alantchapda@gmail.com | ☎ +237 672 171 934 | 📍 Yaoundé, Cameroon | GitHub: GAUSS-TPAC | LinkedIn: alan-tchapda-267981350

PROFESSIONAL SUMMARY

Results-driven Fullstack Developer with 2+ years of hands-on experience building scalable web and mobile applications using Java/Spring Boot, React, Next.js, Flutter, and Python/Django. Proven ability to design REST APIs, implement clean architectures, and deliver end-to-end solutions from backend services to responsive frontends. Currently pursuing a Master's degree in Computer Engineering at ENSP Yaoundé, with a strong focus on AI and distributed systems. Seeking opportunities to contribute to innovative, high-impact software projects across global markets.

PROFESSIONAL EXPERIENCE

Junior Fullstack Developer | Gohze Jun. 2025 – Present

📍 Yaoundé, Cameroon

- Developed TumCare, a cross-platform health monitoring app for cardiac patients using Flutter (frontend) and Django REST Framework (backend), enabling real-time vital signs tracking and automated alerts.
- Designed and implemented RESTful APIs consumed by both web and mobile clients, reducing data retrieval latency by ~30% through query optimization.
- Integrated real-time data visualization dashboards for patients and caregivers, improving health metric readability and actionability.
- Collaborated in an Agile team of 4 developers; participated in code reviews, sprint planning, and technical documentation.

Academic Fullstack Developer | Yowyob 2024 – Present

📍 Yaoundé, Cameroon

- Built an Informal Addressing System web application using React and Next.js, featuring dynamic routing, state management with Redux, and real-time data updates — improving urban address management efficiency.
- Designed and developing an LDAP-inspired directory protocol system using Spring Boot (backend) and Next.js (frontend), focused on secure authentication, efficient querying, and scalable data architecture.
- Implemented CI/CD pipeline for automated deployment, reducing manual deployment time by 40%.
- Wrote unit and integration tests (JUnit, Jest) to ensure code quality and system reliability.

KEY PROJECTS

TumCare — Cardiac Health Monitoring App | Flutter · Django · REST API · PostgreSQL 2024 – Present

📍 Gohze — Production

- End-to-end development of a mobile/web health app supporting patients with cardiac conditions, featuring real-time monitoring, alert notifications, and data analytics dashboards.
- Tech stack: Flutter (iOS/Android), Django REST Framework, PostgreSQL, Docker.

Informal Addressing System | React · Next.js · Spring Boot dec 2024 – march 2025

📍 Yowyob — Academic/Production

- Web platform for managing and digitizing informal urban addresses; supports dynamic routing, geolocation features, and real-time updates for 500+ address entries.

LDAP-Inspired Directory Protocol | Spring Boot · Next.js · Security sept2025 –dec 2025

📍 Yowyob — Ongoing

- Designing a custom directory protocol system with secure authentication (JWT/OAuth2), role-based access control, and efficient hierarchical data querying inspired by LDAP standards.

EDUCATION

Master's Degree — Computer Engineering (in progress) Sept. 2024 – Present

École Nationale Supérieure Polytechnique de Yaoundé (ENSP) — Yaoundé, Cameroon

- Specialization: Software Engineering, Algorithms, Distributed Systems, Artificial Intelligence.
- Key coursework: Fullstack Development, System Architecture, Data Structures, Network Protocols.

DEUG — Mathematics *Sept. 2022 – 2024*

University of Yaoundé 1 — Yaoundé, Cameroon

- Strong foundation in analysis, algebra, statistics, and mathematical modeling applied to computer science.

TECHNICAL SKILLS

Languages	Java, Python, JavaScript, TypeScript, Dart
Frontend	React.js, Next.js, Flutter, HTML5, CSS3, Tailwind CSS
Backend	Spring Boot, Django REST Framework, Node.js, REST API, GraphQL
Databases	PostgreSQL, MySQL, MongoDB
DevOps & Tools	Git, GitHub, Docker, CI/CD, Linux, VS Code, IntelliJ IDEA
AI & Data	Machine Learning, Prompt Engineering, Data Analysis, Data Visualization
Methodologies	Agile/Scrum, Clean Architecture, TDD, MVC, Microservices

CERTIFICATIONS

- Oracle Cloud Infrastructure — AI Foundation Associate (Oracle Cloud, 2025)
- Oracle Cloud Infrastructure — Data Science Professional (Oracle Cloud, 2025)
- IoT & Cloud Computing — Yonsei University via Coursera
- Prompt Engineering for AI Content Generation — LinkedIn Learning
- Google Slides — Coursera

LANGUAGES

French — Native **English** — Fluent (Professional)
